## DEMOCRATS SHUN PUBLICITY FOR PLATFORM PLANS

(Continued from page one)

This new departure admits that the humblest citizen has rights which are more sacred than the prerogatives of a prince; which admit that the lowliest of the lowly has certain inalienable rights of which no majority can deprive him without tyranny and injustice.

"Under the new rule, which provides for the election of committeemen by primary vote the citizen who eats bread by the sweat of his own brow is as royal as a king and a most important unit in our system of government.

"The last legislature enacted a makeshift primary law which provides for the nomination or election of candidates for elective offices by direct vote of the people. While this law is a great stride in the direction of popular government it is far from satisfactory in some of its provisions; however, the undesirable features of the act may be amended by the next legislature. Under the provisions of the new primary law candidates for elective office must go directly to the voters to secure their nominations. In the light of recent experience I would urge the rank and file of the Democratic party to be most careful in the selection of the candidates of our party for the general election to be held on the 3rd day of November of this year. There should be a general disinfection, purification and alignment in our party. In other words I would strongly urge the true and faithful in our party who are not Democrats for revenue only to divide the goats from the sheep—and drive the goats over the fall.

"The political future of our island territory is fraught with considerable uncertainty and anxiety in that our political opponents, the Republicans, in their insane desire to again control governmental affairs at all hazards, are secretly raising the race issue among the people to the end that in the general confusion and factional bitterness the small oligarchy that for so many years misruled Hawaii may again assume control of our political destinies.

"Our verdant hills and peaceful valleys will soon resound with the raucous exhortations of our friends the Republicans, denouncing the Democratic party for bringing financial disaster to Hawaii. While they are ranting and raving about the sins of omission and commission of the Democratic party, do not forget to ask them who is responsible for the surplus of alien pauper labor now in our midst? Do not forget to ask them why the Republican delegate to Congress has utterly neglected his duties and responsibilities to the Territory of Hawaii? Do not forget to tell them that through their own shortsightedness and rapacious instincts and practices Hawaii was denied a fair hearing on the question of the sugar tariff. And do not forget to tell them that because of the lavish and corrupt lobby they maintained in Washington, President Woodrow Wilson, in order to protect the good name and honor of Democracy arose in his virtuous wrath and denounced the paid hirelings of the sugar producers for attempting by insidious methods to influence Congress, and drove them from the halls and corridors of Congress, where for so many years they had traded in the honor of men."

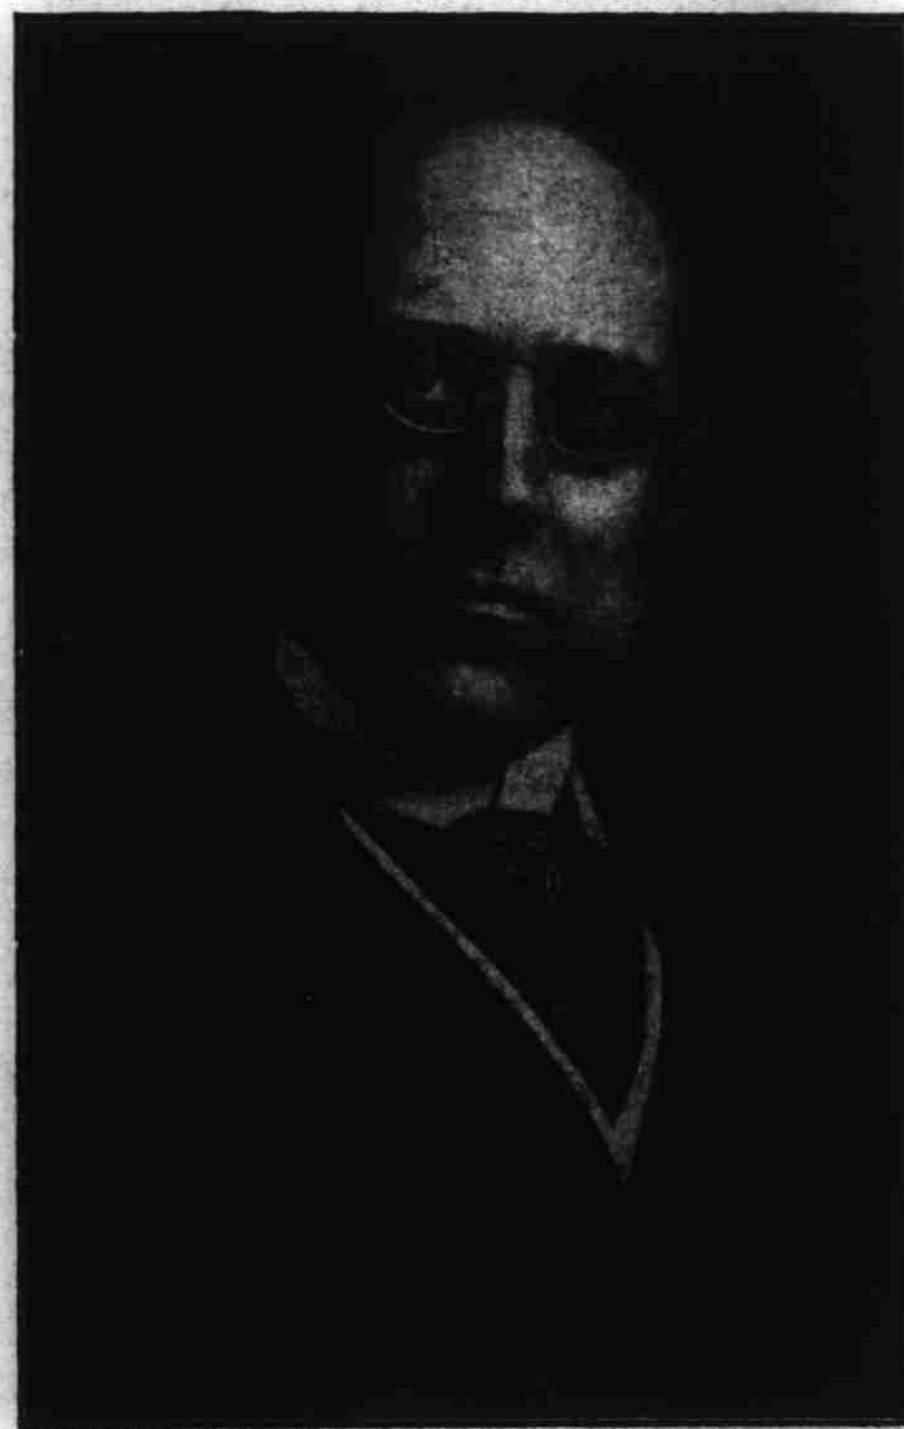

According to Pauahi street reports this morning, the plank which will deal with the sugar tariff is not yet in its final shape, and may be delivered altogether different than anticipated.

During the executive session, all the proposed planks were introduced, including the firebrand aimed at Governor Pinkerton, but none of them were accepted finally. They were all regarded as passed on first reading, and this afternoon when the committee meets it will decide the ones to be passed and not to be passed on second reading. It is necessary for the platform to go through three readings.

There were a few startled Democrats yesterday afternoon at the meeting when they awoke to the fact that Pacheco had been made permanent chairman. Soon after he had been made temporary chairman, and before the credentials had been finally passed on, he entertained a motion to make the temporary organization permanent; and this was done in a twinkling.

The markings on a graduated measuring glass invented in Germany are made along a zigzag line instead of a vertical one and, having wider spaces between, are said to be read more accurately.

## BARRETT ACCEPTS OFFICE IN THE HANDS-AROUND-PACIFIC MOVEMENT

John Barrett, the director-general of the Pan-American Union of Republics, has written to the Hands-Around-the-Pacific directors in Honolulu accepting the vice-presidency of that organization, and pledging the cooperation of the Pacific Latin American states in the movement. His letter will be read at the get-together dinner to Alexander Hume Ford tonight at the Outrigger club.

## EVERYBODY INVITED TO ATTEND DINNER FOR ALEXANDER HUME FORD

Everybody is invited to attend the "Welcome Home" dinner to be given to Alexander Hume Ford under the auspices of the Hands-Around-the-Pacific Club at the Outrigger Clubhouse tonight.

Special invitations are not necessary in order to assure a welcome at this event, the sole necessity being one simoleon, the charge for one of the best dinners every spread upon the board.

Besides the dinner Mr. Ford will be heard from regarding his travels and boostings for Hawaii nei, while touring the globe.

The harbor of Havre is being deepened to accommodate the largest passenger steamers at all tides.

A revolving plow has been patented in which a gasoline motor drives the cutting wheel.

## Chew Food Thoroughly

In these days of soft foods and quick meals, insufficient mastication of food is often responsible for stomach trouble, headache, biliousness, constipation, dull brains, and various other ills.

Generally these troublesome results can be avoided or corrected by having a regular daily ration of

## Grape-Nuts

FOOD

The firm, crisp granules, with cream or milk invite thorough chewing which is of double advantage. It promotes a sure mixture of the food with the saliva—the first step in digestion. It also tends to normal development and preservation of the teeth.

Grape-Nuts food is made of whole wheat and malted barley. It contains all the rich nutriment of the grains, including the natural Phosphate of Potash so essential for strength of body and keenness of brain.

Grape-Nuts comes ready to eat direct from the packet—has a delicious taste—and is easily digested.

Eat slowly—chew your food thoroughly!

"There's a Reason" for Grape-Nuts

—sold by Grocers and Stores.
